Our digital library spans in multiple locations, allowing you to get the most less latency time to download any of our books like this one. Kindly say, the Jane Goodall La Millor Amiga Dels Ximpanzes I La is universally compatible with any devices to read

The Lines On Nana's Face - Simona Ciralo 2016-10-11

It's granny's birthday, but her little granddaughter wonders why, because of the lines on her face, she looks so worried! But they are simply wrinkles, and grandma is very fond of her lines because they are where she keeps her memories. In this imaginative and charming story, Simona Ciralo turns the lines from old age into little wrinkles of wonder and memory as a little girl learns all about the precious moments in her grandma's life.

The Story of Jane Goodall - Jane Smith 2021-09-14

Jane Goodall -

With Love - Jane Goodall 2021-01-26

"Chimpanzees, more like us than any other living animal, form a living link between two worlds, human and non-human beings. When David Greybeard reached out to touch my hand I needed no words to understand his message of reassurance: and I loved him." In this enchanting book, world-renowned scientist and conservationist Jane Goodall brings together stories gleaned from nearly 40 years of studying chimpanzees in the forests of Tanzania. As the stories recounted here demonstrate, chimpanzees are capable of great compassion, altruism, and love.

The Watcher - Jeanette Winter 2011-04-05

Acclaimed picture book biographer Jeanette Winter has found her perfect subject: Jane Goodall, the great observer of chimpanzees. Follow Jane from her childhood in London watching a robin on her windowsill, to her years in the African forests of Gombe, Tanzania, invited by brilliant scientist Louis Leakey to observe chimps, to her worldwide crusade to save these primates who are now in danger of extinction, and their habitat. Young animal lovers and Winter's many fans will welcome this fascinating and moving portrait of an extraordinary person and the animals to whom she has dedicated her life. The Watcher was named a Best Book of the Year by the Boston Globe, Kirkus Reviews, Booklist, and the Bank Street College of Education.

Akhenaten: Egypt's False Prophet - Nicholas Reeves 2019-08-20

Nicholas Reeves's radical interpretation of a revolutionary king—now available in paperback. One of the most compelling and controversial figures in ancient Egyptian history, Akhenaten has captured the imagination like no other Egyptian pharaoh. Much has been written about this strange, persecuted figure, whose depiction in effigies is totally at odds with the traditional depiction of the Egyptian ruler-hero. Akhenaten sought to impose upon Egypt and its people the worship of a single god—the sun god—and in so doing changed the country in every way. In Akhenaten, Nicholas Reeves presents an entirely new perspective on the turbulent events of Akhenaten's seventeen-year reign. Reeves argues that, far from being the idealistic founder of a new faith, the Egyptian ruler cynically used religion for political gain in a calculated attempt to reassert the authority of the king and concentrate all power in his hands. Backed by abundant archaeological and documentary evidence, Reeves's narrative also provides many new insights into questions that have baffled scholars for generations—the puzzle of the body in Tomb 55 in the Valley of the Kings; the fate of Nefertiti, Akhenaten's beautiful wife; the identity of his mysterious successor, Smenkhkare; and the theory that Tutankhamun, Akhenaten's son and heir to the throne, was murdered.

Hypatia's Heritage - Margaret Alic 1986-11-15

Portrays the lives and recovers the scientific contributions of women whose names have been left out of history books

The Tears of the Ancestors - Daan van Kampenhout 2008

Emily Brown and the Elephant Emergency - Cressida Cowell 2015-06-04

Emily Brown, Stanley the bunny and Matilda the elephant are busy going on adventures, but every time they get to a particularly exciting part . . . Ring! Ring! goes the Emergency Telephone and it's Matilda's mummy on the end worrying that Matilda isn't wearing her wellies, or eating properly or almost anything. How can Emily Brown persuade her that sometimes adventures are good? This brilliant title from this award-winning team is a witty and poignant book about the importance of spending quality time with your children and allowing them to explore the world around them. 'A sensitive and witty handling of fears that has a valuable lesson for adults too. Great fun.' - Daily Mail Written by Cressida Cowell, the bestselling author of the How to Train Your Dragon series. <http://www.cressidacowell.co.uk/> Illustrated by award winning Neal Layton, creator of Stanley's Stick. <http://www.neallayton.co.uk/>

Amelia Earhart - Isabel Thomas 2018-06

The first woman to fly solo across the Atlantic Ocean, Amelia Earhart was a superstar of aviation in the 1920s and 1930s and a pioneer of women's rights. Her disappearance in 1937, while attempting to fly around the world, remains an unsolved mystery. From artists to aviators and scientists to revolutionaries, Little Guides to Great Lives is a brand new series of small-format guides introducing children to the most inspirational figures from history in a fun, accessible way. Launching with Leonardo da Vinci, Marie Curie, Nelson Mandela and Amelia Earhart, Little Guides to Great Lives tells the stories of the most amazing people from all over the world and across history, with colourful illustrations and fresh design to bring their incredible stories to life.

Son - Ariel Andrés Almada 2021-03

A declaration of love from parents to their son, with stunning art by award-winning illustrator Sonja Wimmer

Pangolina - Jane Goodall 2021-07-13

From legendary naturalist Jane Goodall, an absorbing fictional tale that will steal hearts and open minds about the plight of the pangolin, the only mammalian species with scales, and endangered by illegal trafficking. After a blissful babyhood being cared for by her loving mother, Pangolina ventures out alone into the forest to become an independent adult, helped along by wise, older animal companions, including a civet and a bat. But one day cruel hunters trap Pangolina, putting her into a cage along with her friends, and bring them to a market to be sold as wild game. Pangolina is especially vulnerable, since her scales are prized by humans who believe they have curative powers. To the rescue comes a small girl who knows that pangolins are friendly fellow creatures who have feelings too, and who convinces her mother to buy Pangolina and set her free. Jane Goodall's many followers and all animal-loving children and adult picture book fans will be riveted by this suspenseful and heartwarming fictional story set in China and including an authoritative informational page about pangolins and suggestions for how to help fight animal trafficking.

Titanic - Simon Adams 2014-06-16

In "Eyewitness: Titanic" young readers will discover the triumphs and tragedies of this "unsinkable" luxury liner. Detailed images and text highlight all aspects of this fateful journey including how the ship was built and equipped, what kind of pass

Counting Sheep - Axel Lindén 2018-11-20

Norwegian Wood meets The Tao of Pooh in this philosophical, witty, and heartwarming collection of daily observations from a Swedish academic-turned-sheep farmer who finds peace and meaning outside the hustle and bustle of modern, urban life. One of the fun things about keeping sheep is that now and then it feels like something other than a job or a duty. Perhaps the feeling can best be summed up by the idea that it's not I who keep the sheep, but the sheep who keep me. When Axel Lindén leaves his literary life in the city for the farm he unexpectedly inherits—along with the ever-escaping flock of sheep that comes with

it—he has a fairly naïve notion of what farm life will be: pure drudgery. But as time passes and Axel slowly settles into the rhythms of the farm and shepherding, his naiveté fades away and is gradually replaced with a new appreciation of the spiritual and emotional value of manual labor, caring for other living things, and staying connected to the earth. Capturing his observations and thoughts in short diary entries, *Counting Sheep* is a meditative and irresistibly delightful book that delves into the small wonders of our world and celebrates pastoral life, demonstrating that it's often the little things in life that mean the most.

Little People, BIG DREAMS: Earth Heroes - Maria Isabel Sanchez Vegara 2021-04-06

Little People, BIG DREAMS: Earth Heroes is a boxed gift edition set of three books - Jane Goodall, David Attenborough and Greta Thunberg - from the bestselling series.

Louis I, King of the Sheep - Olivier Tallec 2015

Louis I, King of the Sheep is a funny philosophical fable about a sheep who finds a crown, and revels in dreams of power.

The Curious World of Calpurnia Tate - Jacqueline Kelly 2015-07-07

Whether wrangling a rogue armadillo or stray dog, a guileless younger brother or standoffish cousin, Callie Vee and her escapades will have readers laughing and crying in this return to Fentress, Texas. Travis keeps bringing home strays. And Callie has her hands full keeping the animals—her brother included—away from her mother's critical eye. Will she succeed? This title has Common Core connections.

Wangari's Trees Of Peace - Jeanette Winter 2008-09-21

As a young girl growing up in Kenya, Wangari was surrounded by trees.

But years later when she returns home, she is shocked to see whole forests being cut down, and she knows that soon all the trees will be destroyed. So Wangari decides to do something—and starts by planting nine seedlings in her own backyard. And as they grow, so do her plans. . . . This true story of Wangari Maathai, environmentalist and winner of the Nobel Peace Prize, is a shining example of how one woman's passion, vision, and determination inspired great change. Includes an author's note. This book was printed on 100% recycled paper with 50% postconsumer waste.

Marie Curie - Philip Steele 2006

Marie Curie dreamed of becoming a scientist. Determined to succeed, she became the first woman to study physics at the University College of Paris. She went on to win a Nobel Prize for her research into radioactivity.

Primates - Jim Ottaviani 2013-06-11

Introduces the lives and work of three eminent primatologists, shares insights into their educations under mentor Louis Leakey, while exploring their pivotal contributions to twentieth-century natural science.

The Human Body - Pascale Hédelin 2011-03-01

Examines various parts and systems of the human body and explains how each work.

What a Naughty Bird! - Sean Taylor 2015-10-06

A hilarious, rhyming picture book about one very naughty bird! In this hilarious rhyming story, one naughty bird flies around the world, pooping on other animals! He goes on a bull on a farm, an elephant in Africa, a wolf in the mountains, and a shark in the sea. It's all fun and games until

the bird goes a step too far and poops on a bear. The bird forgot that bears can climb trees, too, as the bear climbs up when the bird is sleeping to a higher branch and returns the favor!

Me . . . Jane - Patrick McDonnell 2012-03-27

Patrick McDonnell-beloved, bestselling author-artist and creator of the *Mutts* syndicated comic strip--shares the inspiring story of young Jane Goodall, the legendary and inspiring conservationist featured in the hit documentary film *Jane*. In his characteristic heartwarming style, Patrick McDonnell tells the story of the young Jane Goodall and her special childhood toy chimpanzee named Jubilee. As the young Jane observes the natural world around her with wonder, she dreams of "a life living with and helping all animals," until one day she finds that her dream has come true. With anecdotes taken directly from Jane Goodall's autobiography, McDonnell makes this very true story accessible for the very young--and young at heart. One of the world's most inspiring women, Dr. Jane Goodall is a renowned humanitarian, conservationist, animal activist, environmentalist, and United Nations Messenger of Peace. In 1977 she founded the Jane Goodall Institute (JGI), a global nonprofit organization that empowers people to make a difference for all living things.

Monsters Are Afraid of the Moon - Marjane Satrapi 2006-09-05

When Marie brings the moon into her bedroom, it scares away the monsters who have tormented her but also causes problems which only the village cats can help solve.

The Ten Trusts - Jane Goodall 2013-08-06

World-renowned behavioral scientists Jane Goodall and Marc Bekoff have set forth ten trusts that we must honor as custodians of the planet. They argue passionately and persuasively that if we put these trusts to work in our lives, the earth and all its inhabitants will be able to live together harmoniously. The Ten Trusts expands the concept of our obligation to live in close relationship with animals -- for, of course, we humans are part of the animal kingdom -- challenging us to respect the interconnection between all living beings as we learn to care about and appreciate all species. The world is changing. We are gradually becoming more aware of the damage we are inflicting on the natural world. At this critical moment for the earth, Goodall and Bekoff share their hope and vision of a world where human cruelty and hatred are transformed into compassion and love for all living beings. They dream of a day when scientists and non-scientists can work together to transform the earth into a place where human beings live in peace and harmony with animals and the natural world. Simple yet profound, The Ten Trusts will not only change your perspective regarding how we live on this planet, it will establish your responsibilities as a steward of the natural world and show you how to live with respect for all life.

Untamed - Anita Silvey 2015

"This biography for children will trace Goodall's life, but each chapter will also focus on two or more the chimpanzees that she observed, with information in sidebars about these particular animals. Along with biographical details, the book will explore the ethical issues that surround Goodall's work and show what has changed in our understanding of Great Apes. What do we know today about these animals in terms of language, speech, tool use, and DNA? How has sophisticated technology - GPS systems, Satellite imagery, portable digital microphones - been used to gain new information about animal populations."--
