resources for both students and instructors. For students there are flashcards to test themselves on main concepts, a list of key media associations, a template flowchart and formulas. Instructors can find lecture slides and sample test questions to assist in their course preparation.

The Peanut Butter Fish - Scott Anderson 2014-08-22

Peanut Butter is a sad little fish. His best friend, Honey, just moved away. The two friends were perfect together, just like a peanut butter and honey sandwich. Now Honey is gone, and Peanut Butter needs a new friend-but how will he find one? Peanut Butter sets out on a thrilling adventure deep in the ocean to find a new best friend. He starts his journey by seeking out only the most beautiful fish in the sea and rejecting all others. Along the way, he encounters colorful characters like sharks, an angelfish, a moon snail, and many more. Peanut Butter soon realizes that if he wants real friendship, he'll have to look deeper and discover the beauty

within other fish. If he can do that, perhaps he'll finally find the perfect friend. Join Peanut Butter on his big adventure, and share in the discovery of a vibrant undersea community. More importantly, swim along with him as he learns about the importance of true friendship.

Private Empire

- Steve Coll 2012-05-01
From the award-winning and bestselling author of Ghost Wars and Directorate S, an “extraordinary” and “monumental” exposé of Big Oil (The Washington Post) Includes a profile of current Secretary of State and former chairman and chief executive of ExxonMobil, Rex Tillerson In this, the first hard-hitting examination of

ExxonMobil—the largest and most powerful private corporation in the United States—Steve Coll reveals the true extent of its power. Private Empire pulls back the curtain, tracking the corporation’s recent history and its central role on the world stage, beginning with the Exxon Valdez accident in 1989 and leading to the Deepwater Horizon oil spill in the Gulf of Mexico in 2010. The action spans the globe—featuring kidnapping cases, civil wars, and high-stakes struggles at the Kremlin—and the narrative is driven by larger-than-life characters, including corporate legend Lee “Iron Ass” Raymond, ExxonMobil’s chief executive until 2005, and current chairman and chief executive Rex Tillerson, President-elect Donald Trump's nomination for Secretary of State. A penetrating, news-breaking study, Private Empire is a defining portrait of Big Oil in American politics and foreign policy.

Making Healthcare Safe -

Lucian L. Leape 2021-05-28

This unique and engaging open access title provides a compelling and ground-breaking account of the patient safety movement in the United States, told from the perspective of one of its most prominent leaders, and arguably the movement's founder, Lucian L. Leape, MD. Covering the growth of the field from the late 1980s to 2015, Dr. Leape details the developments, actors, organizations, research, and policy-making activities that marked the evolution and major advances of patient safety in this time span. In addition, and perhaps most importantly, this book not only comprehensively details how and why human and systems errors too often occur in the process of providing health care, it also promotes an in-depth understanding of the principles and practices of patient safety, including how they were influenced by today's modern safety sciences and systems theory and design.

Indeed, the book emphasizes how the growing awareness of systems-design thinking and the self-education and commitment to improving patient safety, by not only Dr. Leape but a wide range of other clinicians and health executives from both the private and public sectors, all converged to drive forward the patient safety movement in the US. Making Healthcare Safe is divided into four parts: I. In the Beginning describes the research and theory that defined patient safety and the early initiatives to enhance it. II. Institutional Responses tells the stories of the efforts of the major organizations that began to apply the new concepts and make patient safety a reality. Most of these stories have not been previously told, so this account becomes their histories as well. III. Getting to Work provides in-depth analyses of four key issues that cut across disciplinary lines impacting patient safety which required special attention. IV. Creating a Culture of Safety looks to the future, marshalling

the best thinking about what it will take to achieve the safe care we all deserve.

Captivatingly written with an “insider’s” tone and a major contribution to the clinical literature, this title will be of immense value to health care

professionals, to students in a range of academic disciplines, to medical trainees, to health administrators, to policymakers and even to lay readers with an interest in patient safety and in the critical quest to create safe care.
