Medical Muses - Asti Hustvedt 2012-01-01

In 1862 the Salpêtrière Hospital in Paris became the epicenter of the study of hysteria, the mysterious illness then thought to affect half of all women. There, prominent neurologist Jean-Martin Charcot's contentious methods caused furore within the church and divided the medical community. Treatments included hypnosis, piercing and the evocation of demons and, despite the controversy they caused, the experiments

became a fascinating and fashionable public spectacle. *Medical Muses* tells the stories of the women institutionalised in the Salpêtrière. Theirs is a tale of science and ideology, medicine and the occult, of hypnotism, sadism, love and theatre. Combining hospital records, municipal archives, memoirs and letters, *Medical Muses* sheds new light on a crucial moment in psychiatric history.

Eye of the Century - Francesco Casetti 2008

Acclaimed film scholar Francesco Casetti situates the cinematic experience within discourses of 20th century modernity. *Alan Lomax* - John Szwed 2010-12-30

The remarkable life and times of the man who popularized American folk music and created the science of song. Folklorist, archivist, anthropologist, singer, political activist, talent scout, ethnomusicologist, filmmaker, concert and record producer, Alan Lomax is best remembered as the man who introduced folk music to the masses. Lomax began his career making field recordings of rural music for the Library of Congress and by the late 1930s brought his discoveries to radio, including Woody Guthrie, Pete Seeger, and Burl Ives. By the 1940s he was producing concerts that brought white and black performers together, and in the 1950s he set out to record the whole world. Lomax was also a controversial figure. When he worked for the U. S. government he was tracked by the FBI, and when he worked in Britain, MI5 continued the surveillance. In his last years he turned to digital media and developed technology that anticipated today's breakthroughs. Featuring a cast of characters including Eleanor Roosevelt, Leadbelly, Carl Sandburg, Carl Sagan, Jelly Roll Morton, Muddy Waters, and Bob Dylan, Szwed's fascinating biography memorably captures Lomax and provides a definitive account of an era as seen through the life of one extraordinary

man.

I Feel Love - Dave Thompson 2021-08-01

When it comes to earthshaking songs—the ones that signal a tectonic shift in the current musical landscape—there is “Johnny B. Goode” . . . there is “Good Vibrations” . . . and there is “I Feel Love.” A disco touchstone recorded by Donna Summer in 1976 and released on her fifth studio album, *I Remember Yesterday*, in 1977, “I Feel Love” is one of the most important records in music history, and one of the most influential. “I Feel Love” topped charts the world over—including in the UK, Australia, France, Italy, and the Netherlands—and was in the Top 10 everywhere else. This record, Brian Eno told David Bowie as they worked together in the recording studio, “is going to change the sound of club music for the next fifteen years.” Which, said Bowie, “was more or less right.” Except fifteen years was an under-estimation. Even now, more than forty years after its release, “I Feel Love” is routinely featured toward the top of manifold “greatest song” Top 100s—and remains a favorite by music fans and artists alike, with dozens of cover versions

paying homage. That is the tale this book tells—not only the story of the song but also the story of its all-pervading impact upon the world of popular music. Firsthand experiences and original interviews with a host of musicians, disc jockeys, and dancers loudly illustrate the record's initial impact and its continuing influence. "I Feel Love" still sounds like the future.

**Chronic Hepatitis C Virus** - Mitchell L. Shiffman 2011-11-17

Chronic Hepatitis C Virus: Lessons from the Past, Promise for the Future documents the monumental advances that have been made in our understanding of chronic HCV during the past decade. The first section reviews the natural history of chronic HCV, how this virus can affect other organs in addition to the liver, and whether treating chronic HCV

alters the natural history of this disease. Section 2 reviews the advances that have been made in the treatment of chronic HCV during the past decade with interferon based therapy. Separate chapters on response guided therapy and how to manage the adverse events associated with these medications provide the physician with the concepts required to more effectively treat chronic HCV now and in the future. As the genetics of virologic response have recently been elucidated, a chapter is devoted to helping the clinician understand how genes that modulate disease processes and their treatment are identified and utilized in clinical care. Section 3 deals with the future of HCV treatment and specific inhibitors of HCV. Specific chapters explain how targets for drugs are identified and how drugs are then developed and tested; how mutations of HCV develop and how anti-viral agents will affect this process; the most up to date data regarding the treatment of chronic HCV with peginterferon, ribavirin and anti-viral agents; and the potential to treat chronic HCV with just oral anti-viral agents and without peginterferon and ribavirin in the future. The final section of this book covers issues related to liver transplantation in patients with chronic HCV. Separate chapters review the natural history of chronic HCV in liver transplant recipients and the impact of utilizing HCV positive donors. The volume concludes with chapters that cover the treatment of chronic HCV both prior to and after liver transplantation with potent anti-viral agents. Chronic Hepatitis C Virus: Lessons from the Past, Promise for the Future is a valuable resource for all physicians caring for patients with chronic HCV.

**Carnevale si chiamava Vincenzo** - Roberto De Simone 1977

*Hysteria Beyond Freud* - Sander L. Gilman 2022-03-25

"She's hysterical." For centuries, the term "hysteria" has been used by physicians and laymen to diagnose and dismiss the extreme emotionality and mysterious physical disorders presumed to bedevil others—especially women. How did this medical concept assume its power? What cultural purposes does it serve? Why do different centuries and different circumstances produce different kinds of hysteria? These are among the questions pursued in this absorbing, erudite reevaluation

of the history of hysteria. The widely respected authors draw upon the insights of social and cultural history, rather than Freudian psychoanalysis, to examine the ways in which hysteria has been conceived by doctors and patients, writers and artists, in Europe and North America, from antiquity to the early years of the twentieth century. In so doing, they show that a history of hysteria is a history of how we understand the mind. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1993.

First published in 2004. Routledge is an imprint of Taylor & Francis, an informa company.

**The Body Impolitic** - Michael Herzfeld 2004

The Body Impolitic is a critical study of tradition, not merely as an ornament of local and national heritage, but also as a millstone around the necks of those who are condemned to produce it. Michael Herzfeld takes us inside a rich variety of small-town Cretan artisans' workshops to show how apprentices are systematically thwarted into learning by stealth and guile. This harsh training reinforces a stereotype of artisans as rude and uncultured. Moreover, the same stereotypes that marginalize artisans locally also operate to marginalize Cretans within the Greek nation and Greece itself within the international community. What Herzfeld identifies as "the global hierarchy of value" thus frames the nation's ancient monuments and traditional handicrafts as evidence of incurable "backwardness." Herzfeld's sensitive observations offer an intimately grounded way of understanding the effects of globalization and of one of its most visible offshoots, the heritage industry, on the lives of ordinary people in many parts of the world today.

**La Dernière Tarentule** - Tullia Conte 2021-11-15

Le tarentisme est un phénomène qui a eu cours dans le sud de l'Italie et

jusqu'en Espagne et qui a progressivement disparu. Il s'agit d'un rituel, variable d'une zone géographique à l'autre, qui devait guérir la morsure d'une araignée venimeuse ; pour se débarrasser du poison, il fallait des danses et d'autres pratiques partagées ; les dernières manifestations de cette tradition ont eu lieu dans le Cilento, dans la province de Salerne, au milieu du XXème siècle. Le phénomène est documenté par l'anthropologue Annabella Rossi, dont les recherches comportent une cinquantaine de témoignages enregistrés entre Capaccio, Trentinara et d'autres villages. « La dernière tarentule », trente ans après ces études, met en évidence à travers une perspective historique et anthropologique, les aspects les plus méconnus du phénomène, qui peuvent dialoguer avec l'art contemporain mais aussi avec les approches thérapeutiques récentes. Tullia Conte est engagée dans l'étude et l'enseignement de la danse folklorique. Pédagogue, elle a utilisé les danses sur scène dans des contextes différents : laboratoires avec les enfants, les adultes, création et mise en scène de spectacles. Directrice d'un petit théâtre municipal en Italie pendant deux ans, elle vit actuellement à Paris. Outre le présent ouvrage, édité en italien sous le titre « L'altra taranta - Annabella Rossi e il tarantismo nel Cilento », (Ed. Sudanzare 2019), elle est également l'auteure de l'ouvrage « Diacronia minima del tarantismo » (Ed. Sudanzare 2020), consacré au phénomène dans tout le territoire italien. *Il mito del tarantismo* - Pierpaolo De Giorgi 2008

**Bodies of Vital Matter** - Per Binde 1999

*La Letteratura, la lingua: La letteratura latina medioevale in Italia* - 1987

*Magic* - Ernesto De Martino 2015

The work of Ernesto de Martino is relatively unknown outside of Italian intellectual circles, but with a growing interest in his ethnographic and theoretical work, he is now widely considered to be one of the great anthropologists and historians of religion of the early twentieth century. *Magic: A theory from the south* (first published in Italian as *Sud e Magia*) is de Martino's stunning ethnography of ceremonial magic in southern

Italy (Luciana/Basilicata), an intimate “other” to Western European civilization. Rigorous and detailed analyses of evil eye, possession, witchcraft, religious belief, “binding,” exorcism, and various magical practices lead de Martino to question the historical, ideological, ritual, psychological, and pragmatic grounds of the arts of enchantment. The question here is not whether magic is irrational or rational, but why it came to be perceived as a problem of knowledge in the first place. De Martino's response is contextualized within his wider, pathbreaking theorization of ritual, as well as his politically sensitive reading of the south's subaltern culture in its historical encounter with Western science. In addition to the ethnography, De Martino's historical anthropology traces the development of “jettatura” in Enlightenment Naples as a paradigm of the complex dynamics between hegemonic and subaltern cultures. Far ahead of its time, this first English edition (annotated and translated by Dorothy Louise Zinn) stands to be as relevant as ever as anthropologists (among others) continue to theorize modernity's continued tryst with magical thinking. 1st Edition

**Mind the Screen** - Jaap Kooijman 2008

*Mind the Screen* pays tribute to the work of the pioneering European film scholar Thomas Elsaesser, author of several volumes on media studies and cinema culture. Covering a full scope of issues arising from the author's work—from melodrama and mediated memory to avant-garde practices, media archaeology, and the audiovisual archive—this collection elaborates and expands on Elsaesser's original ideas along the topical lines of cinephilia, the historical imaginary, the contemporary European cinematic experience, YouTube, and images of terrorism and double occupancy, among other topics. Contributions from well-known artists and scholars such as Mieke Bal and Warren Buckland explore a

range of media concepts and provide a mirror for the multi-faceted types of screens active in Elsaesser's work, including the television set, video installation, the digital interface, the mobile phone display, and of course, the hallowed silver screen of our contemporary film culture.

*L' altra Taranta* - Tullia Conte 2019-11-22

Il tarantismo, fenomeno ampiamente diffuso nel meridione d'Italia, vede nel Cilento, in Campania, l'ultimo baluardo della sua manifestazione. Non avendo goduto di particolari attenzioni dagli storiografi e nemmeno dalla letteratura di settore, il fenomeno è documentato dalla compianta antropologa Annabella Rossi. La studiosa vi ha dedicato una ricerca che raccoglie circa cinquanta testimonianze realizzate tra Capaccio, Trentinara e altri paesi dell'entroterra salernitano. A trent'anni da quegli studi, il volume vuole riportare l'attenzione sulle indagini compiute da Annabella Rossi e trasportare il lettore nel fascino di un mistero, quello del morso del ragno detto tarantola. L'altra taranta, attraverso una prospettiva storica e antropologica, arriva fino ai giorni nostri,

evidenziando aspetti del fenomeno ancora sconosciuti, che possono dialogare non solo con l'arte contemporanea ma anche con i recenti approcci terapeutici.
