If Someone Says "You Complete Me," RUN! - Whoopi Goldberg 2015-10-13

From the provocative and hilarious EGOT winner, bestselling author, and host of *The View*, Whoopi Goldberg, comes the perfect antidote to all those outdated relationship advice books in the world, weighing in on why marriage isn't for everybody, and how the life you want shouldn't be the life everyone else expects you to have. Whoopi Goldberg has been an electrifying, envelope-pushing public figure of many stripes: acclaimed actor, comedienne, singer, songwriter, author, political activist and talk show host. Now, Whoopi will speak openly

about why marriage isn't for everyone, how being alone can be satisfying, and how what's most important is understanding who you are and what makes you happy. Wise, funny, and conversation-starting, Whoopi's message is sure to resonate with the millions of people who struggle with relationships every day. Goldberg says: "I get to hear from a lot of different people about relationships and this got me trying to figure out why the divorce rate is SO high. It occurred to me that as one who has done it badly often, I might have some insight. It's hard to really know the other person's agenda, but if someone says 'you complete me'...RUN!!!"

Commemorations - John R. Gillis 2018-06-05

Memory is as central to modern politics as politics is central to modern memory. We are so accustomed to living in a forest of monuments, to having the past represented to us through museums, historic sites, and public sculpture, that we easily lose sight of the recent origins and diverse

meanings of these uniquely modern phenomena. In this volume, leading historians, anthropologists, and ethnographers explore the relationship between collective memory and national identity in diverse cultures throughout history. Placing commemorations in their historical settings, the contributors disclose the contested nature of these monuments by showing how groups and individuals struggle to shape the past to their own ends. The volume is introduced by John Gillis's broad overview of the development of public memory in relation to the history of the nation-state. Other contributions address the usefulness of identity as a cross-cultural concept (Richard Handler), the connection between identity, heritage, and history (David Lowenthal), national memory in early modern England (David Cressy), commemoration in Cleveland (John Bodnar), the museum and the politics of social control in modern Iraq (Eric Davis), invented tradition

and collective memory in Israel (Yael Zerubavel), black emancipation and the civil war monument (Kirk Savage), memory and naming in the Great War (Thomas Laqueur), American commemoration of World War I (Kurt Piehler), art, commerce, and the production of memory in France after World War I (Daniel Sherman), historic preservation in twentieth-century Germany (Rudy Koshar), the struggle over French identity in the early twentieth century (Herman Lebovics), and the commemoration of concentration camps in the new Germany (Claudia Koonz).

ISS 12 The Arab Revolutions in Context - Benjamin Isakhan
2012-08-01

From late 2010 a series of dramatic and unprecedented events swept across the Middle East and North Africa, toppling several autocratic regimes that had held power for decades and ushering in a new climate of dissent and democratisation. The Arab Revolutions in Context seizes a unique opportunity to reflect on these

seismic events, their causes and consequences, and the core issues facing the region as it moves forward. This volume is more than a collection of detailed thematic essays. It situates the Arab Revolutions within their broader contextual backgrounds—showing that a unique set of historical events, as well as local, regional and global dynamics, has converged to provide the catalyst that triggered the recent revolts—and also within a new conceptual framework. The argument here is that the Arab Revolutions pose a very specific challenge to conventional wisdom concerning democracy and democratisation in the Middle East. *The Arab Revolutions in Context* is the first volume of its kind to address the Arab Revolutions and the varying analyses, debates and discussions that they have stimulated.

The extreme Right in Western Europe - Elisabeth Carter
2013-07-19

Parties of the extreme right have experienced a dramatic

rise in electoral support in many countries in Western Europe over the last two and a half decades. This phenomenon has been far from uniform, however, and the considerable attention that the more successful right-wing extremist parties have received has sometimes obscured the fact that parties of the extreme right have not recorded high electoral results in all West European democracies. Furthermore, the electoral scores of these parties have also varied over time, with the same party recording low electoral scores in one election but securing high electoral scores in another. This book, available in paperback for the first time, examines the reasons behind the variation in the electoral fortunes of the West European parties of the extreme right in the period since the late 1970s. It proposes a number of different explanations as to why certain parties have performed better than others at the polls and it investigates each of these different explanations

systematically and in depth. As well as offering a comprehensive analysis of the reasons behind the uneven electoral success of the West European parties of the extreme right, this book provides up-to-date information on all right-wing extremist parties that have contested elections at national level across Western Europe since the late 1970s. In addition to examining the parties' ideology and organisation, it discusses their relationship with the parties of the mainstream, and it investigates the impact that electoral institutions have on their ability to attract votes. This book is aimed at both scholars and students interested in the extreme right, in party politics and in comparative politics more generally.

The Epochs of German History
- J. Haller 2020-06-30

Originally published in 1930. This book is not intended to be a discussion on German history, but to talk about its epochs, a period in which some fresh beginning is made, some

fresh determining element enters, some event occurs to give a new direction to the course of history. The book is concerned with the critical moments of German history, the turning points in its course. Those are what we want to consider, and also to select as points of vantage from which we may survey the development of the German nation, viewing the panorama section by section.

Felidae - Akif Pirinçci 1994

The Emergent Manager examines the process of becoming a manager within organizations and considers how people relate the ways in which they 'manage' their lives to their development as managers in the workplace. At the heart of the book is the idea of the individual engaged in a continual process of 'becoming'. Focusing on the reported experiences of managers, the book is richly illustrated throughout with examples drawn from a variety of workplaces, including the civil service, academia, the retail industry, construction

and engineering, banking and the prison service. Tony Watson and Pauline Harris together provide a new understanding of the nature of the management role and the ways in which people make sense of their lives as managers. Accessible and innovative, this book will be of interest to students and academics in management and organization studies as well as practising managers.

Constructing Nationalities in East Central Europe - Pieter M. Judson 2005

"The hundred years between the revolutions of 1848 and the population transfers of the mid-twentieth century saw the nationalization of culturally complex societies in East Central Europe. This fact has variously been explained in terms of modernization, state building, and nation-building theories, each of which treats the process of nationalization as something inexorable, a necessary component of modernity. Although more recently social scientists gesture to the contingencies

that may shape these larger developments, this structural approach makes scholars far less attentive to the "hard work" (ideological, political, social) undertaken by individuals and groups at every level of society who tried themselves to build "national" societies." "The essays in this volume make us aware of how complex, multi-dimensional and often contradictory this nationalization process in East Central Europe actually was. The authors document attempts and failures by nationalist politicians, organizations, activists, and regimes from 1848 through 1948 to give East-Central Europeans a strong sense of national self-identification. They remind us that only the use of dictatorial powers in the 20th century could actually transform the fantasy of nationalization into a reality, albeit a brutal one."--BOOK JACKET.

The German New Right - Jay Julian Rosellini 2020-03-01
Contemporary Germany is a modern industrial democracy

admired throughout the world. Many Germans believe that they live in the 'best Germany' that has ever existed. Yet there are dissenting voices: individuals and groups that reject cosmopolitanism, globalization and multiculturalism, and yearn for the more homogeneous country of earlier times. They are part of a global movement, often characterized as populist, that values tradition over innovation or constant change. In Germany, such people are routinely portrayed as reactionary or even neo-fascist. The present study seeks to provide a portrait of these individuals and their organizations. Very little has been written in English about the cultural figures who play a role in this movement. When the political side is discussed--whether in its manifestation as a party (the Alternative for Germany) or a citizens' group (PEGIDA)--the cultural dimension is usually ignored. Jay Julian Rosellini places the so-called New Right in the context of currents in German

culture and history that differ from those in other countries. With Germany the dominant country in the European Union, economically and politically, this volume offers an essential view of its current conditions, future prospects and political particularities.

Die Volksverführer - Daniel Bax 2018-08-01

Was tun gegen Rechts? Rechtspopulisten haben derzeit Auftrieb - autoritäre Demagogen liegen im Trend. Wer aber wählt diese rechten Verführer und was treibt die "besorgten Bürger" um? Ist es die Furcht vor wirtschaftlichem Abstieg, oder sind es andere Verlustängste? Welche Rolle spielen die Medien? Ist linker Populismus die probate Antwort? Daniel Bax zeigt die Gründe für den aktuellen Erfolg der Rechtspopulisten und wie wir dieser Entwicklung entgegenwirken können. *Post-Digital Cultures of the Far Right* - Maik Fielitz 2018-12-31 How have digital tools and networks transformed the far right's strategies and transnational prospects? This

volume presents a unique critical survey of the online and offline tactics, symbols and platforms that are strategically remixed by contemporary far-right groups in Europe and the US. It features thirteen accessible essays by an international range of expert scholars, policy advisors and activists who offer informed answers to a number of urgent practical and theoretical questions: How and why has the internet emboldened extreme nationalisms? What counter-cultural approaches should civil societies develop in response?

Democratic Transition in the Middle East - Larbi Sadiki
2013-05-02

Popular uprisings and revolts across the Arab Middle East have often resulted in a democratic faragh or void in power. How society seeks to fill that void, regardless of whether the regime falls or survives, is the common trajectory followed by the seven empirical case studies published here for the first time. This edited volume seeks

to unpack the state of the democratic void in three interrelated fields: democracy, legitimacy and social relations. In doing so, the conventional treatment of democratization as a linear, formal, systemic and systematic process is challenged and the power politics of democratic transition reassessed. Through a close examination of case studies focusing on Bahrain, Egypt, Iraq, Lebanon, Syria, and Yemen, this collection introduces the reader to indigenous narratives on how power is wrested and negotiated from the bottom up. It will be of interest to those seeking a fresh perspective on democratization models as well as those seeking to understand the reshaping of the Arab Middle East in the lead-up to the Arab Spring.

Europe, Globalization, and the Coming of the Universal Caliphate - Bat Ye'or
2011-09-16

Europe, Globalization, and the Coming Universal Caliphate analyzes the modern political trends and strategies that are

leading to major changes in Western civilization, America included, since the OIC strategy targets America also. Learning from the European experience is crucial for Americans. Moreover this evolution is inscribed in the historical movement of Islamic theology and expansionism. It is not fortuitous but it has its own theological and political structure that must be known in the West if we wish to live in a peaceful world.

Marked for Death - Geert Wilders 2012-05-01

The controversial Netherlands Parliament member recounts his battle against the spread of Islam in the West, addressing why liberal politicians downplay the threat and why the free speech of Islam's critics is often suppressed.

Ego - Frank Schirrmacher 2015-11-30

Twenty-five years after the end of the Cold War, a new Cold War is being waged in our societies. During the Cold War a theoretical model of man was developed by economists and the military, an egotistical

being interested only in his own benefit and in duping his opponents to achieve his ends: a modern homo oeconomicus. After his career in the Cold War ended, he was not scrapped but adapted to the needs of the twenty-first century. He became the ringmaster of a new era of information capitalism. He sought to read, control and influence thoughts; to predict, price and eliminate risks. Today stock-market trading is guided by him. He uses computer algorithms and Big Data to build up detailed pictures of our preferences and then suggest and sell goods to us. The model has become a self-fulfilling prophecy. We are no longer the masters of our own fate. The Game of Life runs without us. Schirrmacher traces the progress of this extreme rationalization of social life from the Cold War games of the 1950s Rand Corporation to the stock-market trading techniques that brought about the financial crash of 2008, showing how these developments were

interwoven with the rise of game theory, rational choice theory and neoliberal economics. The state and politics increasingly submitted themselves to the logic of computerized game theory and an economic view of the world, evading real decision-making in the process. In this brave new world individuals, alone in front of their computers, may think they are constructing a reality of their own choosing, but in fact they are being manipulated all along by others who are setting the rules of the game. This international bestseller by one of Germany's most distinguished journalists is a powerful indictment of a way of thinking that has become pervasive and threatens to undermine not only parliaments and constitutions but also the sovereignty of the individual to be the person he or she wants to be.

Revolution in Rojava - Michael Knapp (Historian) 2016

"Surrounded by enemies including ISIS and hostile

Turkish forces, the people in Syria's Rojava region are carving out one of the most radically progressive societies on the planet. Visitors have been astounded by the success of their project, a communally organised democracy which considers women's equality indispensable, has a deep-reaching ecological policies, and rejects reactionary nationalist ideology. This form of organization, labeled democratic confederalism, is both fiercely anti-capitalist and boasts a self-defense capacity which is keeping ISIS from their gates. Drawing on their own firsthand experiences of working and fighting in the region, the authors provide the first detailed account of a revolutionary experiment and a new vision of politics and society in the Middle East and beyond"--Back cover.

What Makes Us Girls - Brittany Pettibone 2018-12-18

We cannot give what we do not have. So, if we do not love ourselves, or even if we are too obsessed with ourselves, how then can we love others? What

Makes Us Girls examines the topic of self-worth through a modern cultural lens. Using examples from the author's life experience and the life experiences of a variety of other girls, What Makes Us Girls analyzes seven of the most common issues that result in a destructive sense of self-worth: comparison, rejection, bullying, inauthenticity, purposelessness, betrayal and guilt. Every girl in the world, no matter our age or the country we are from, will have to face a battle for self-worth. Some of us will win and some of us will lose. But those of us who win will do so for two reasons: because we are able to see the battle for what it is, and even more importantly, because we have the right weapons to fight it. "Faced with the very real suffering of today's women and girls, it seems like society only reacts by promising women that they will inherit the earth, and also that nothing is their fault. Brittany's book is a wonderful dose of tough love, which reminds us all that a sex that

cannot take responsibility for anything, cannot achieve anything. This book feels like a summary of every time Brittany and I have laughed over coffee, or when she has held me while I cried and put my broken heart back together. I am so thrilled that so many other girls will have that experience. If I ever have a daughter, this book will be on her nightstand." - Lauren Southern
Beyond Empire and Nation - Els Bogaerts 2012-01-01
The decolonization of countries in Asia and Africa is one of the momentous events in the twentieth century. But did the shift to independence indeed affect the lives of the people in such a dramatic way as the political events suggest? The authors in this volume look beyond the political interpretations of decolonization and address the issue of social and economic reorientations which were necessitated or caused by the end of colonial rule. The book covers three major issues; public security; the changes in the urban environment, and the

reorientation of the economies. Most articles search for comparisons transcending the colonial period to the early decades of independence in Asia and Africa (1930's-1970's). The volume is part of the research programme

'Indonesia across Orders' of the Netherlands Institute for War Documentation.

The Bird Is a Raven - Benjamin Lebert 2007-12-18

Henry and Paul are strangers when they find themselves sharing a sleeping compartment on a night train from Munich to Berlin. When they begin to talk, their stories appear to be variations on the same theme: young guys adrift in the big city, relationships gone wrong, broken hearts. Henry is running away from a triangle of friendship gone sour; Paul is running away too, but as the night unfolds and the train speeds north across the German landscape, his story turns ominous. What he finally reveals to his unsuspecting traveling companion goes into the darkest sphere of human

behavior. Shocking and raw, The Bird is a Raven is the work of a writer at the beginning of a stellar career.

Logiken Strukturbildender Prozesse: Automatismen - Norbert Otto Eke 2014

Die Automatismenforschung untersucht strukturbildende Prozesse jenseits bewusster Planungen. Sie zeigt, dass Entwicklungsprozesse, auch wenn sie nicht zentral, intentional und von »oben« geregelt werden, dennoch ein hohes Maß an Ordnung hervorbringen und dass es möglich ist, auf dieser Basis neue Entwicklungslogiken, neue Arten von Kausalität und Gesetzmäßigkeit in Wirkung zu beschreiben. Charakteristisch für Automatismen ist, dass sie weder dem Bewusstsein noch dem (gesellschaftlich) Unbewussten zuzurechnen sind, dass sie vielmehr auf der Grenze zwischen beiden Sphären operieren. Der Band stellt Ergebnisse der letzten

fünf Jahre
Automatismenforschung dar.
Die Beiträge werfen aus
verschiedenen
Fachperspektiven einen Blick
auf das Konzept der
Automatismen und verhelfen
den komplexen
Zusammenhängen der
Strukturentstehung in
Informationstechnik, Medien
und Kultur zur Sichtbarkeit.

the 21st Century
(International Initiative
Edition)** - Abdullah Ocalan
2013-03-13

Abdullah Ocalan was the leader
of the Kurdistan Workers
Party, the PKK, and the most
wanted man in Turkey for
almost two decades. He was
eventually kidnapped while in

Kenya in 1999, and has been in
prison in Turkey ever since.
From 1984, under his
leadership, the PKK fought for

in the south east of Turkey. In
a sustained popular uprising,
tens of thousands of PKK
guerrillas took on the second
largest army in NATO. The
conflict has remained unsolved
till today and the fighting still
goes on. While in prison, Mr.
Ocalan has written a number of
books, in which he analyses the
situation in Kurdistan and
offers proposals for a peaceful
solution to the conflict.
Crises of Empire - Martin
Thomas 2015-04-23
Crises of Empire offers a
comprehensive and uniquely
comparative analysis of the
history of decolonization in the
British, French and Dutch
empires. By comparing the
processes of decolonization
across three of the major
modern empires, from the
aftermath of the First World
War to the late 20th century,
the authors are able to analyse
decolonization as a long-term
process. They explore

significant changes to the international system, shifting popular attitudes to colonialism and the economics of empire. This new edition incorporates the latest developments in the historiography, as well as: - Increased coverage of the Belgian and Portuguese empires - New introductions to each of the three main parts, offering some background and context to British, French and Dutch decolonization - More coverage of cultural aspects of decolonization, exploring empire 'from below' This new edition of Crises of Empire is essential reading for all students of imperial history and decolonization. In particular, it will be welcomed by those who are interested in taking a comparative approach, putting the history of decolonization into a pan-European framework.

20 Jahre eigentlich frei - André F. Lichtschlag
2017-11-02

20 Jahre eigentlich frei - Anlass für eine Bestandsaufnahme zur Stimme der Freiheit im

deutschsprachigen Raum. ef - wo stehen die libertären Medienmacher? Wo kommen sie her? Wo wollen sie hin? Für das vorliegende Buch konnte eine Idealbesetzung gewonnen werden, die einen sonst oft sehr trockenen Jubiläumsband in ein spannendes Leseabenteuer verwandelt hat.

Erstens: Oliver Uschmann. Der vor allem für die "Hartmut und ich"-Reihe bekannte Bestseller-Autor, Journalist und Fußballexperte wählte aus dem großen ef-Kader genau elf Gesprächspartner aus. Sein Arbeitstitel in Anlehnung an Tuvia Tenenboms Erfolgsreportagen: "Allein unter Libertären". Uschmanns "Elf" spielt stellvertretend für eine dreistellige Zahl wichtiger Stammautoren und für in den zurückliegenden 20 Jahren mehr als 1.300 ef-Autoren und -Interviewpartner. Die Autorenschar produzierte in den vergangenen zwei Dekaden auf mehr als 12.000 Seiten knapp 7.000 Artikel - alleine im gedruckten Heft, dazu kommt die tägliche Online-Arbeit. Für den zweiten,

ineinander verwobenen Part dieses Buches - einen vierteiligen, ebenfalls spielerisch-literarischen Rückblick auf Meilensteine und Anekdoten in 20 Jahren eigentümlich frei - wurde, zweitens, ein ebenfalls romanerfahrener Autor gewonnen, der die ef-Geschichte aus noch näherer Perspektive miterleben konnte: das libertäre Urgestein David Schah. Treffen Schah und Uschmann zusammen, entstehen Gedankengänge, Formulierungen und Assoziationsketten, deren Übermut man in der Sprache von Uschmanns Hartmut als "murpig" bezeichnen darf. Die beiden Macher dieser außergewöhnlichen Nahaufnahme von 20 Jahren eigentümlich frei sollten als Autorenduo das Cover zieren. Doch, ganz echte Profisportler, verweisen beide darauf, dass dieses Werk eine Mannschaftsleistung sei. Schah betont die vielen Stunden, die er mit Redaktionsmitgliedern vor der Schreibearbeit im Gespräch zurückblickte,

Uschmann deutet stolz zu seiner Elf auf dem Rasen. Machen wir also dieses Kleinod zu einem Gemeinschaftsprojekt - von uns, für Euch: 20 Jahre eigentümlich frei - Das Buch. **Directed by Allen Smithee** - Jeremy Braddock 2001
Allen Smithee specializes in the mediocre. He is versatile. He is prolific. And he doesn't exist. From 1969 until 1999, Allen Smithee was the pseudonym adopted by Hollywood directors when they wished not to be associated with films ostensibly of their making . Encompassing over fifty films of various stripes -- B movies, sequels, music videos, made-for-TV movies -- Smithee's three decades of work affords the authors of this volume a unique opportunity to reassess the claims of auteurism, both in its traditional guise and in the more commodified form it currently assumes. Sometimes treating Smithee as an auteur in much the same way critics and scholars have treated directors as diverse as Douglas Sirk, Abbas Kiarostami, and Quentin Tarantino, the

contributors reclaim new possibilities for auteurist filmmaking and film studies, even as they show what an empty display it has recently become. In accounting for this change, the essays in this volume employ innovative theories of authorship to recapture the subversive effect that auteurism once enjoyed. Thus the Smithee name becomes part of a larger discussion of the economics and history of pseudonyms in filmmaking -- notably in the blacklist of the 1950s -- as well as an opportunity to employ Jacques Derrida's theory of the signature to recover obscured economic and historic contexts within Smithee's films. Unique in its focus, innovative in its approach, Directed by Allen Smithee argues that it is precisely through throwaway films such as Smithee's that recent Hollywood cinema can best be studied.

Thabo Mbeki and the Battle for the Soul of the ANC - William Mervin Gumede 2013-02-07

As a spokesman for a country, a continent and the developing

world, Thabo Mbeki played a crucial role in world politics, but to many people he remained an enigma throughout his presidency. Is this simply because he was a secretive man, or were there complicated political factors at play? Who was the real Mbeki? In this book, multiple-award-winning journalist William Mervin Gumede chronicles Mbeki's spectacular rise to dominate Africa's oldest liberation movement. He explores the complex position that Mbeki occupied -- following in Nelson Mandela's footsteps, holding together an alliance with deep ideological differences, and ruling an intensely divided country. Revealing the political and personal tensions behind the scenes, Gumede explains how Mbeki sought to mould the ANC into his image through tight control, and exposes the intrigues behind the battle for succession. Covering Mbeki's attempts to modernise the economy and kick-start an African Renaissance, and investigating his controversial

stance on issues from AIDS to Zimbabwe, the book offers invaluable insights into the arcane machinations behind political decisions that touch the lives of millions every day. *Attacke auf den Mainstream* - Akif Pirinçci 2014-12-01
Akif Pirinçcis Bestseller
»Deutschland von Sinnen. Der irre Kult um Frauen, Homosexuelle und Zuwanderer« versetzt die deutschen Medien im Frühjahr 2014 in helle Aufregung. Fast drei Monate lang geistert Pirinçci als »Hassprediger« durch die Feuilletons der Republik. Sein Name wird in einem Atemzug mit Sarrazin, Breivik und Hitler genannt. Dabei richtet sich Pirinçcis Kritik nicht gegen Frauen, Homosexuelle und Zuwanderer, sondern gegen deren kultische Verehrung durch Politiker und Journalisten. Im Verlauf der erhitzten Debatte wird deutlich, was das Buch wirklich ist: ein kalkulierter Angriff auf das politisch korrekte Establishment und sein Meinungsmonopol. Und noch

etwas führt das Buch vor: den tiefen Graben zwischen Medien und Leserschaft, denn Pirinçcis Anhänger reagieren mehrheitlich allergisch auf die geballte Pirinçci-Schelke, die sie zugleich als Leserschelte empfinden. Dieser Band dokumentiert die aufregenden Wochen - mit Nachdrucken, Originalbeiträgen und einer kommentierten Medienchronik, mit Texten von Akif Pirinçci, Thor Kunkel, Ijoma Mangold, André F. Lichtschlag und vielen anderen.

[The Best Enemy Money Can Buy](#) - Antony C Sutton
2014-11-03

With mountains of documentation, mostly from government and corporate sources, Sutton shows that Soviet military technology is heavily dependent on U.S. and allied gifts, "peaceful trade" and exchange programs. We've built for, sold or traded, or given outright to the Communists everything from copper wiring and military trucks to tank technology, missile guidance technology, computers - even the Space

Shuttle. Peaceful trade is a myth ... to the Soviets all trade is strategic. The paradox is that we spend \$300 billion a year on a defense against an enemy we created and continue to keep in business. The deaf mute blindmen, as Lenin called them, are the multi-national businessmen who see no further than the next contract, who have their plants defended by Marxist troops (in Angola); who knowingly sell technology that comes back to kill and maim Americans.

Long Island - Eugene L. Armbruster 1914

Memories and Representations of War - 2009-01-01

The contributors to the present volume approach World War I and World War II as complex and intertwined crossroads leading to the definition of the new European (and world) reality, and deeply pervading the making of the twentieth century. These scholars belong to different yet complementary areas of research - history, literature, cinema, art history; they come from various

national realities and discuss questions related to Italy, Britain, Germany, Poland, Spain, at times introducing a comparison between European and North American memories of the two World War experiences. These scholars are all guided by the same principle: to encourage the establishment of an interdisciplinary and trans-national dialogue in order to work out new approaches capable of integrating and acknowledging different or even opposing ways to perceive and interpret the same historical phenomenon. While assessing the way the memories of the two World Wars have been readjusted each time in relation to the evolving international historical setting and through various mediators of memory (cinema, literature, art and monuments), the various essays contribute to unveil a cultural panorama inhabited by contrasting memories and by divided memories not to emphasise divisions, but to acknowledge the ethical need

for a truly shared act of reconciliation.

Von Katzen und Menschen.

Zu Akif Pirinçcis "Felidae" -

Pia Zarsteck 2015-08-13

Bachelorarbeit aus dem Jahr 2014 im Fachbereich Germanistik - Neuere Deutsche Literatur, Note: 3,0, Universität Bremen, Sprache: Deutsch, Abstract: Der aus Sicht eines Katers geschriebene Roman „Felidae“ wurde 1990 als bester Kriminalroman ausgezeichnet. Bis heute besteht der Zyklus um den Katzendetektiv aus insgesamt acht Werken. Schwerpunktmäßig soll in dieser Arbeit die Darstellung des Menschen und die der Katze, sowie einige kriminalliterarische Aspekte des Werks untersucht werden. Die Hauptfigur ist Francis, ein

Kater, der gerade mit seinem Besitzer Gustav in einen Altbau in einer ihm fremden Gegend gezogen ist. Gleich bei seinem ersten Umsehen in den Gärten hinter den Häusern entdeckt Francis einen toten Artgenossen und lernt seinen neuen Freund Blaubart kennen. Nach und nach stoßen sie auf noch mehr tote Katzen und Kater und stellen Nachforschungen an, bis Francis am Ende des Romans diese Mordserie aufdeckt. Die Arbeit beginnt nach dieser Einleitung mit einem Kapitel über Autor und Werk. Neben dessen biografischen Hintergrund werden auch seine Werke kurz thematisiert. Das zweite Kapitel behandelt das Werk als Kriminalroman. An dieser Stelle wird auch untersucht, wo genau der Roman in der Kriminalliteratur zu verordnen ist. In einem dritten Kapitel wird die Hauptfigur des Werks untersucht. Da es kein Mensch, sondern ein Tier ist, wird in diesem Kapitel im Allgemeinen und Speziellen das Tier als denkende oder sprechende

literarische Figur behandelt. Das vierte Kapitel arbeitet das Katzenbild des Romans näher heraus, während das fünfte Kapitel die Darstellung des Menschen thematisiert. Es soll die Frage beantwortet werden, ob Akif Pirinçci den Katzen in diesem Werk eine menschliche Intelligenz zuschreibt oder sie sogar als die „besseren“ Menschen darstellt.

Abschließend wird ein zusammenfassendes Fazit formuliert, in dem die offenen Fragen beantwortet werden und darüber hinaus noch mögliche offene Fragestellungen und Forschungsgegenstände genannt werden. [...]

The Arabs - Maxime Rodinson
1981-07-15

"The Arabs is an interpretative essay based upon a great deal of reading and research, and like other writings of the author, brilliant and insightful. Rodinson's response to the question Who are the Arabs? traces the career of the Arab people from their first appearance about twenty-nine centuries ago up to the present

day. The purpose of the book is to make the reader aware of an undeniable Arab being, of its historic performance and its contemporary situation, on the basis of a scientifically careful but sympathetic study and statement."--Back cover.

The Ferry Road on Long Island - Eugene L. Armbruster
1919

Narratives Unbound - Balázs Trencsényi 2007-07-15

The first work that covers the post-Communist development of historical studies in six Eastern European countries: Bulgaria, Czech Republic, Hungary, Poland, Romania, and Slovakia. A uniquely critical and qualitative analysis from a comparative and critical perspective, written by scholars from the region itself. Focusing on the first post-Communist decade, 1989–1999, the book offers a longer-term perspective that includes the immediate 'prehistory' of that momentous decade as well as its 'posthistoire'. The authors capture the spirit of 1989, that

heady mix of elation, surprise, determination, and hope: l'ivresse du possible. This was the paradoxical beginning of Eastern European post-Communism: ushered in by 'anti-Utopian' revolutions, and slowly finding its course towards a bureaucratic, imitative, challenging, and anachronistic restoration of a capitalism that had changed almost beyond recognition when it had mutated into the negative double of Communism. Each individual chapter has numerous and detailed notes and references.

The Syrian Jihad - Charles R. Lister 2016

The eruption of the anti-Assad revolution in Syria has had many unintended consequences, among which is the opportunity it offered Sunni jihadists to establish a foothold in the heart of the Middle East. That Syria's ongoing civil war is so brutal and protracted has only compounded the situation, as have developments in Iraq

and Lebanon. Ranging across the battlefields and international borders have been dozens of jihadi Islamist fighting groups, of which some coalesced into significant factions such as Jabhat al Nusra and the Islamic State. This book assesses and explains the emergence since 2011 of Sunni jihadist organizations in Syria's fledgling insurgency, charts their evolution and situates them within the global Islamist project. Unprecedented numbers of foreign fighters have joined such groups, who will almost certainly continue to host them. Thus, external factors in their emergence are scrutinized, including the strategic and tactical lessons learned from other jihadist conflict zones and the complex interplay between Al-Qaeda and the Islamic State and how it has influenced the jihadist sphere in Syria. Tensions between and conflict within such groups also feature in this indispensable volume.
