Authorized Agents - Frank Kelderman
2019-10-01

Examines the relation between Indian diplomacy

and nineteenth-century Native American literature. In the nineteenth century, Native American writing and oratory extended a long tradition of diplomacy between indigenous people and settler states. As the crisis of forced removal profoundly reshaped Indian country between 1820 and 1860, tribal leaders and intellectuals worked with coauthors, interpreters, and amanuenses to address the impact of American imperialism on Indian nations. These collaborative publication projects operated through institutions of Indian diplomacy, but also intervened in them to contest colonial ideas about empire, the frontier, and nationalism. In this book, Frank Kelderman traces this literary history in the heart of the continent, from the Great Lakes to the Upper Missouri River Valley. Because their writings often were edited and published by colonial institutions, many early Native American writers have long been misread, discredited, or simply ignored. *Authorized Agents* demonstrates why

their works should not be dismissed as simply extending the discourses of government agencies or religious organizations. Through analyses of a range of texts, including oratory, newspapers, autobiographies, petitions, and government papers, Kelderman offers an interdisciplinary method for examining how Native authors claimed a place in public discourse, and how the conventions of Indian diplomacy shaped their texts. Frank Kelderman is Assistant Professor of English at the University of Louisville.

Andrew Carnegie Speaks to the 1% - Andrew Carnegie 2016-04-14

Before the 99% occupied Wall Street... Before the concept of social justice had impinged on the social conscience... Before the social safety net had even been conceived... By the turn of the 20th Century, the era of the robber barons, Andrew Carnegie (1835-1919) had already accumulated a staggeringly large fortune; he was one of the wealthiest people on the globe. He guaranteed his position as one of the wealthiest men ever when he sold his steel business to create the United States Steel

Corporation. Following that sale, he spent his last 18 years, he gave away nearly 90% of his fortune to charities, foundations, and universities. His charitable efforts actually started far earlier. At the age of 33, he wrote a memo to himself, noting ..".The amassing of wealth is one of the worse species of idolatry. No idol more debasing than the worship of money." In 1881, he gave a library to his hometown of Dunfermline, Scotland. In 1889, he spelled out his belief that the rich should use their wealth to help enrich society, in an article called "The Gospel of Wealth" this book. Carnegie writes that the best way of dealing with wealth inequality is for the wealthy to redistribute their surplus means in a responsible and thoughtful manner, arguing that surplus wealth produces the greatest net benefit to society when it is administered carefully by the wealthy. He also argues against extravagance, irresponsible spending, or self-indulgence, instead promoting the administration of capital during one's

lifetime toward the cause of reducing the stratification between the rich and poor. Though written more than a century ago, Carnegie's words still ring true today, urging a better, more equitable world through greater social consciousness.

"If you really want to hear about it, the first thing you'll probably want to know is where I was born, and what my lousy childhood was like, and how my parents were occupied and all before they had me, and all that David Copperfield kind of crap, but I don't feel like going into it, if you want to know the truth." The hero-narrator of *The Catcher in the Rye* is an ancient child of sixteen, a native New Yorker named Holden Caulfield. Through circumstances that tend to preclude adult, secondhand description, he leaves his prep school in Pennsylvania and goes underground in New York City for three days.
