**Weed Land** - Peter Hecht 2014-05-02

Early in the morning of September 5, 2002, camouflaged and heavily armed Drug Enforcement Administration agents descended on a terraced marijuana garden. The DEA raid on the Wo/Men's Alliance for Medical Marijuana, a sanctuary for severely ill patients who were using marijuana as medicine, is the riveting opening scene in *Weed Land*, an up-close journalistic narrative that chronicles a transformative epoch for marijuana in America. From the 1996 passage of California's Proposition 215, the nation's first medical marijuana law, through law enforcement raids, clinical studies that revealed medical benefits for cannabis, and the emergence of a lucrative cannabis industry, *Weed Land* reveals the changing political, legal, economic, and social dynamics around pot. Peter Hecht, an award-winning journalist from *The Sacramento Bee*, offers an independent, meticulously reported account of the clashes and contradictions of a burgeoning California cannabis culture that stoked pot liberalization across the country. *American Government* - Scott F. **Humboldt** - Emily Brady 2013-06-18

In the vein of Susan Orlean's *The Orchid Thief* and Deborah Feldman's *Unorthodox*, journalist Emily Brady journeys into a secretive subculture--one that marijuana built. *Humboldt: Life on America's Marijuana Frontier* Say the words "Humboldt County" to a stranger and you might receive a knowing grin. The name is infamous, and yet the place, and its inhabitants, have been nearly impenetrable. Until now.

Humboldt is a narrative exploration of an insular community in Northern California, which for nearly 40 years has existed primarily on the cultivation and sale of marijuana. It's a place where business is done with thick wads of cash and savings are buried in the backyard. In Humboldt County, marijuana supports everything from fire departments to schools, but it comes with a heavy price. As legalization looms, the community stands at a crossroads and its inhabitants are deeply divided on the issue--some want to claim their rightful heritage as master growers and have their livelihood legitimized, others want to continue reaping the inflated profits of the black market. Emily Brady spent a year living with the highly secretive residents of Humboldt County, and her cast of eccentric, intimately drawn characters take us into a fascinating, alternate universe. It's the story of a small town that became dependent on a forbidden plant, and of how everything is changing as marijuana goes mainstream.

**Weed the People** - Bruce Barcott 2015-04-07

There is no other organization whose inner workings are more secretive than the Vatican - the spiritual and physical center - of the Catholic Church. Now, with a dynamic new leader in Pope Francis, all eyes are upon the church, as this immensely popular Pope seeks to bring the church back from the right to center, in what can almost be described as a populist stance, blurring the lines between politics, religion and

culture. With topics including women, finance, scandal, and reform at the fore, never before have so many eyes been upon the church in what could be its defining moment for modern times. Now the most respected journalist covering the Vatican and the Catholic Church today, John L. Allen, reveals the inner workings of the Vatican to display the vast machinery, and the man at the helm in a way that no other writer can. The Boston Globe has stated that John L. Allen 'is basically the reporter that bishops and cardinals call to find out what's going on within the confines of the Vatican.'

*Marijuana Nation: One Man's Chronicle of America Getting High: From Vietnam to Legalization* - Roger Roffman 2014-04-20

As public attitudes about pot undergo rapid change, Roger Roffman's portrait of marijuana in America rises above punditry and rhetoric. Roger Roffman first discovered marijuana while serving as a US Army officer in Vietnam. From these seemingly innocuous beginnings, Roffman has been fascinated by marijuana, as a researcher, scholar, therapist, activist, and user. Ever since America's youth first marched in opposition to the war in Vietnam, pot's popularity has periodically ebbed and surged. Calls for greater, fewer, or no marijuana penalties also have swung on their own pendulum. From lobbying in Washington, to talking to doctors and nurses in oncology wards, and watching his brother struggle with addiction, Roffman has experienced the layered and complex relationship Americans have with marijuana first-hand. With one foot on each side of the fence, at times feeling at odds with both camps, Roffman is on a quest to challenge those who insist we think of marijuana as a weapon of mass destruction, as well as those who would have us see it as a harmless source of pleasure and relief.

[Strengthening Forensic Science in the United States](#) - National Research Council 2009-07-29

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.
