U.S. Navy Medical Department Officer Career Guide - 1991

Wake Up, Woods - Michael A. Homoya 2019-10

Early in the year, our North American forests come to life as native wildflowers start to push up through patches of snow. With longer days and sunlight streaming down through bare branches of towering trees, life on the forest floor awakens from its winter sleep. Plants such as green dragon, squirrel corn, and bloodroot interact with their pollinators and seed dispersers and rush to create new life before the trees above leaf out and block the sun's rays. *Wake Up, Woods* showcases the splendor of our warming forests and offers clues to nature's annual springtime floral show as we walk in our parks and wilderness areas, or even in shade gardens around our homes. Readers of *Wake Up, Woods* will see that Gillian Harris, Michael Homoya and Shane Gibson, through illustrations and text, present a captivating look into our forests' biodiversity, showing how species depend on plants for food and help assure plant reproduction. This book celebrates some of nature's most fascinating moments that happen in forests where we live and play.

Baseball Haiku: The Best Haiku Ever Written about the Game - Nanae Tamura 2007-04-17

Presenting more than two hundred of the greatest haiku ever written about the game. There are moments in every baseball game that make fans catch their breath: the pause while a pitcher looks in for the sign, the moment a cocksure rookie gets picked off first, or the instant a batter lashes a game-winning homer into the night sky, just before the sell-out crowd explodes onto its feet. Haiku captures these moments like no other poetic form, and *Baseball Haiku* captures the sights, the sounds, the smells, and the emotions of the game like no previous collection. Some of the most important haiku poets of both America and Japan are featured in this anthology; including Jack Kerouac, a longtime baseball fan who pioneered English-language haiku; Alan Pizzarelli, one of the top American haiku and senryu poets of the last thirty years; and Masaoka Shiki, one of the four great pillars of Japanese haiku—a towering figure—who was instrumental in popularizing baseball in Japan during

the 1890s. With over two hundred poems spanning more than a century of ball playing, *Baseball Haiku* reveals the intricate ways in which this enduring and indelible sport—which is played on a field, under an open sky—has always been linked to nature and the seasons. And just as a haiku happens in a timeless now, so too does *Baseball Haiku* evoke those unforgettable images that capture the actions and atmospheres of the national pastime: each poem resonates like the lonely sound of cleats echoing in the tunnel as a grizzled veteran leaves his final game. The largest collection of haiku and senryu on baseball ever assembled, *Baseball Haiku* is an extraordinary treasure for any true baseball fan.

Do Penance Or Perish - Frances Finnegan 2004

Frances Finnegan traces the history of the Magdalen Asylums in Ireland, homes founded in the 19th century for the detention of prostitutes undergoing reform, but which later received unwed mothers, wayward girls and the mentally retarded, all of them put to work as forced labour in church-run laundries.

Great Maritime Inventions, 1833-1950 - Mario Theriault 2001

Great Maritime Inventions 1833-1950 is a delightful look at how innovative Maritime ideas changed the world. Between 1833 and 1950, over 3,300 patents were granted to residents of New Brunswick, Nova Scotia and PEI. From the scuba tank to the variable pitch propeller to

two-piece long underwear, *Great Maritime Inventions* profiles the best of the best. Included are inventions that are considered to be great advances in science, those that have substantially changed the course of development of technology, or those that have enjoyed a lasting success that can still be remembered or observed to this day. All of the inventions described in the book were completely novel in their day. Each patent is first in its classification, or else its claims are so broad that the intellectual property protection it gave covered every possible precursor. Before a patent was granted, an applicant had to declare that their invention was entirely new. Each application then underwent a thorough examination by expert examiners at the patent office. Each of the patents in *Great Maritime Inventions* were found to represent knowledge newly available to the public, and to be an important step forward in engineering or in developing consumer products that enhance our lives. Not all inventions were spectacular. In fact, many of these inventions never made it into the history books. It is only after fifty years or more that we realize the influence that every one of these inventions has had on our society. Each invention, large or small, was an important link in the chain of evolution of science and useful arts and has improved the way we live today.

School Governance - Jacqueline Baxter 2016-03-29

The recent Trojan Horse scandal, in which twenty-five Birmingham, UK, schools were investigated following allegations that school governors were imposing a hard-line Muslim curriculum, raised important questions not only about school governance, but also about the future of a democratic system of education in England. Taking the Trojan Horse scandal as a starting point and drawing on her own experience as a school governor, Jacqueline Baxter examines what implications these questions will have for the newly elected British government. By examining the political, social, and economic contexts surrounding education in 2015, *School Governance* offers keen insights into pressures and challenges engendered by the current system and what these challenges may mean for English education in the twenty-first century.

Urban School Leadership - Tom Payzant 2010-11-04

This important book, written by educational expert and urban school leader, Tom Payzant, offers a realistic understanding of what urban school leadership looks like from the inside. Payzant shares his first-hand knowledge of the unique managerial, instructional, and political tasks of this role. Effectively combining practical lessons and research, *Urban School Leadership* includes in-depth analysis of various leadership concerns. The book covers topics such as improving student achievement, working with unions, building community, and maintaining and developing resources. Most importantly, it offers stories of real school leaders whose successes and missteps reveal the inherent "messiness" of this difficult job. *Urban School Leadership* is part of the Jossey-Bass Leadership Library in Education series. "This important book provides compelling examples of how effective leaders can have hope, see progress, and achieve success for all children in the schools and districts they lead."—Richard Riley, former United States Secretary of Education "Tom Payzant is one of the few people who could provide such a comprehensive, useful book for educational leaders at all levels. This very practical book is grounded in the important experiences and impressive judgment of one of our nation's most successful school superintendents"—Jon Schnur, co-founder and CEO, New Leaders for New Schools "Tom Payzant is one of the finest urban educators of our generation. *Urban School Leadership* is compelling, crisp, and wise—providing a clear path for those dedicated to improving the trajectory of children's lives."—Timothy F.C. Knowles, executive director, Center for Urban School Improvement, University of Chicago "Urban School Leadership is a must read for anyone interested in the landscape of urban public education in America."—Beverly Hall, superintendent, Atlanta Public Schools

Voices of Hope - Carole B. Shmurak 1998

Fueled by media reports of gender bias in the schools, the debate over single sex education has been recently renewed. "Voices of Hope" asks for a reconsideration of the framing of that debate. For whom is single sex education better? For the attainment of which goals? What do girls gain by being schooled with male peers? What is lost? In this longitudinal study of more than fifty high school girls at four New England independent schools, Carole B. Shmurak follows their development from ninth grade through the first year of college. Case studies capture the girls' own voices as they describe their hopes for their futures and the events that subsequently affect those futures.

Now, he must find the will to lead the people of FOB Frontier out of hell, even if the one hope of salvation lies in teaming up with the man whose own magical powers put the base in such grave danger in the first

place—Oscar Britton, public enemy number one...

Positive Lightning - Laurie Salzler 2014-12-15

Kate Winter teaches dog owners how to train their canine companions. During her spare time, accompanied by her Lab, Dakota, she explores the woods and beaches on foot or horseback. She's worried that something's happening in her relationship, but she can't get her girlfriend Trish to talk to her about it. Faith Hutchins recently lost her sight after a terrible outdoor accident. She's dealt with her anger, depression, and blindness primarily on her own. A seeing-eye dog would help alleviate her reliance on anyone else, but the guide dog school has been unsuccessful in providing her with one. On a mission to find someone who will train a dog specifically for her, she ultimately zeroes in on Kate. They say lightning never strikes the same place twice. But positive lightning is notoriously unpredictable and can ignite a fire when and where least expected . . . no matter who's in its path."

Writing for Spiritual Growth -

Western Civilization Brief - Thomas F. X. Noble 1998-12-01

Achtung-Panzer! - Heinz Guderian 1995

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns.

Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Women, Aging, and Ageism - Evelyn R Rosenthal 2014-04-23

Here is a unique text that examines the lives of middle-aged and old women. Women, Aging and Ageism, in response to the lack of literature that focuses on aging women, presents timely and definitive research that illustrates the implications of ageism and sexism. This landmark volume challenges powerful myths and dangerous stereotypes and identifies the damaging restrictions that society forces upon aging women. In extending feminist research to middle and old age, the chapters taken together comprise a critique of the conditions of the last third of women's lives. The authors use analytical tools and methodologies developed and modified by feminists to explore questions previously unasked. They focus on issues of deep concern to women at midlife and beyond, including the politics of reproduction, sexuality, social isolation, violence against women, equal opportunity, and the feminization of poverty. Women, Aging and Ageism is available for classroom adoption. Ideal for students and helping professionals working with middle-aged and old women and their families, this book provides models of effective interventions grounded in field research and clinical practice. For all readers concerned about middle-aged and old women and the quality of their lives, Women, Aging and Ageism is a rich

resource filled with ideas and information and an affirmative new volume about the limitless possibilities of women's achievement in midlife and old age.
