Junk Beautiful: Furniture Re[Freshed] - Sue Whitney 2017-09-19

Re-using and re-inventing vintage castoffs as home furnishings take center stage in today's home decor, as these one-of-a-kind treasures create uniquely personal spaces. Best-selling author and junking maven Sue Whitney

unleashes her JUNKMARKET Style on furniture and accessories that make a statement, add a little flair, and tell a story. These pieces are coming from many places--the flea market, antique shop, vintage fair, grandmother's attic, and Goodwill store--and all are getting a new lease on life with a little DIY creativity. In Junk

Beautiful Furniture Re(Freshed), Sue Whitney, heralded as the Queen of Junk and founder of the wilkdly successful JUNKMARKET Style community, provides inspiration for reimagining and refashioning furniture and accessory pieces. Each of the 30 projects is presented with clear, concise step-by-step text and photographs, requires little to no skill, and can be completed in a weekend or less.

Transport in Transition - Andrew Watson
2020-08-06

Water transport is a major feature of the traditional Chinese economy because of its magnitude and comparative efficiency. Yet this feature has all too often been ignored by scholars, with the notable exception of Japanese scholars. We cannot hope to gain any real conception of how the Chinese economy worked in the past, or works now, until we have a clearer picture of the circulation of men and commodities. In this circulation, water transport has been and is of crucial importance. Transport

in Transition collects and translates notable Japanese articles to throw some light on the evolution of traditional junk shipping during a key transitional phase, 1900-1940, when it was absorbing the influences of various forms of modernization and on the eve of its major organizational transformation under the direction of the Communist Party. The articles chosen concentrate on two main themes: the institutional organization of the shipping business, and the forms of ownership and operation. They will be of value to business historians and economic sociologists generally as well as to economic historians interested in transport. Several features of the Chinese economy are sharply illuminated. Most striking is the extent of regional variation. North and central Chinese shipping are shown to have differed both in their methods of operation and organization. Also noteworthy is the enduring strength of some traditional features of shipping operation and business practice. An unexpected

feature of this endurance was the strength of traditional shipping in the face of steady competition from all forms of modern transport and from reputedly more efficient forms of business management.

The Race - Tim Zimmermann 2004-01-01

A contributing editor for Outside magazine provides a behind-the-scenes look at the fast-paced, around-the-world sailing race. An invigorating behind-the-scenes look at the world of extreme sailing, *The Race* is also a taut, engrossing account of the first running of the competition called "The Race," which began on December 31, 2000, in Barcelona and ended sixty-two days later in Marseilles. The most intense event of its kind—a nonstop circumnavigation of the globe in the fastest boats ever built—*The Race* attracts some of the world's best sailors and arguably its most eccentric personalities. Tim Zimmermann, an experienced blue-water sailor, relates in knuckle-whitening detail how and why sailors

risk millions of dollars and their lives to dash around the world in record time. He garnishes this story with a chronicle of the tumultuous history of extreme sailing from the nineteenth century to today. Zimmermann "puts the reader right on board with the tough, colorful crews as they take a crash course (sometimes literally) in how to handle these astonishing machines" (Derek Lundy, author of *Godforsaken Sea*). Praise for *The Race* "Zimmerman turns a daring race of unthinkably fast, high-tech sailing machines into a page-turner." —Bruce Knecht, author of *The Proving Ground* "This is probably the finest account of the history of the circumnavigator's quest yet written, refreshingly free of hyperbole and false expectation. Zimmerman's pace matches that of *The Race* itself, though he never puts his bow under." —Lincoln P. Paine, author of *Ships of the World* "Zimmerman's behind-the-scenes look at the characters, boats, and technology in *The Race*—as well as the rich sailing history that

preceded it—captures the nuances of adventure only a masochist could love. The Race was a wild ride, and The Race is a fine read.” —Herb McCormick, sailing correspondent of the New York Times, editor of *Cruising World*

The ABC of Style - Émile Bayard 2012-05-08

Ever wondered why your ceiling is shaped like the arches in a gothic cathedral? Or why your office building looks so different from its neighboring counterparts? The ABC of Style invites you to explore the many different

architectural and decorative interior styles from their ancient origins to the 1940s. Take a journey through history to see how the French aristocracy styled their palaces and castles to the simple designs of the Dominican monastic churches during the middle ages. Often, political changes implicate a stylistic transformation.

Thus, the different European styles were frequently named after a sovereign or a historical period (Renaissance style, Medieval style). Until the end of the nineteenth century, the stylistic mutations of the time were generally based on the tastes of the royalty. Stylistic expression was, therefore, an affirmation of power.

Wise Highs - Alex J. Packer 2009-09

HOW TO THRILL, CHILL, & GET AWAY FROM IT ALL WITHOUT ALCOHOL OR OTHER DRUGS....Getting high is fun. It's natural and

healthy. It feels great to get a rush, see the world a little differently, alter our consciousness, and take a break from our everyday lives. Unfortunately, by the time we're older, it may seem like the only way to get high is with alcohol or other drugs. Which is why, when it comes to highs, you're likely to hear "Just Say NO." Read this book and you won't need artificial highs. You won't want them. You won't have time for them. You'll find so many ways to get high naturally that you'll never be able to try them all. Here are highs that will thrill you ... and highs that will soothe you. Highs that will take you deep inside yourself ... and waaaay outside. Highs that will change you forever without leaving you dull, burned out, or hung over. Look inside for more than 150 creative, playful, legal, healthy highs. Plus interesting facts, cool quotes, and survey results from teens who shared their favorite ways to relieve stress and escape reality. All served up Alex J. Packer style - witty, wise, and often hilarious. Because laughter is

one of the best highs of all.

New Container Style - Adam Caplin 2006-01-15
Creatively planted containers can look good absolutely anywhere: on a doorstep, a windowsill, a roof terrace, or a garden large or small. In "New Container Style", award-winning garden designer and artist Adam Caplin introduces a fresh and imaginative twist to this type of gardening: wonderful plants matched with pots that can be found in your kitchen cabinet, a thrift store - or even in your own backyard. From galvanized steel buckets to old wine boxes, from a collection of tomato cans to a row of brightly coloured plastic tubs, there is a wonderful choice of affordable and innovative containers to suit any style of garden. Adam explains how to choose the right pot for your purpose and the right plant for your pot. He offers a mass of original ideas for using discarded containers - in materials as diverse as metal, plastic, wicker, and glass - to make your garden a more beautiful place.

Junk Beautiful: She Sheds - Sue Whitney

2018-10-30

Move over, Man Caves. She Sheds are coming to a house near you. Across the country, ladies are carving out a special place for themselves, one free from stress and concern. And they're doing it in their own backyards by turning spaces usually reserved for old tools and greasy car parts into refined relaxation. The beauty of the She Shed is that it can take whatever form best suits your tastes. In *Junk Beautiful: She Sheds*, best-selling author and Queen of Junk Sue Whitney, founder of JUNKSTYLE and author of the *Junk Beautiful* brand of books, will introduce the "rustoration" philosophy to 15 she sheds from across the country. Featured She Sheds will largely be small wooden structures, but could also take the shape of a dolled up camper, vintage horse trailer, tree house, or other unique space. Shed rehab will include indoor and outdoor projects that run from light construction to accessory projects and simple hacks. Re-using

and re-inventing castoffs as home furnishings and accessories create uniquely personal spaces --the hallmark of She Sheds. She Sheds on the East Coast (greater Philadelphia), South (Texas), Midwest (greater Minneapolis), and West Coast (central California) will allow for regional design flavor.

So Good They Can't Ignore You - Cal Newport
2012-09-18

In an unorthodox approach, Georgetown University professor Cal Newport debunks the long-held belief that "follow your passion" is good advice, and sets out on a quest to discover

the reality of how people end up loving their careers. Not only are pre-existing passions rare and have little to do with how most people end up loving their work, but a focus on passion over skill can be dangerous, leading to anxiety and chronic job hopping. Spending time with organic farmers, venture capitalists, screenwriters, freelance computer programmers, and others who admitted to deriving great satisfaction from their work, Newport uncovers the strategies they used and the pitfalls they avoided in developing their compelling careers. Cal reveals that matching your job to a pre-existing passion does not matter. Passion comes after you put in the hard work to become excellent at something valuable, not before. In other words, what you do for a living is much less important than how you do it. With a title taken from the comedian Steve Martin, who once said his advice for aspiring entertainers was to "be so good they can't ignore you," Cal Newport's clearly written manifesto is mandatory reading for anyone

fretting about what to do with their life, or frustrated by their current job situation and eager to find a fresh new way to take control of their livelihood. He provides an evidence-based blueprint for creating work you love, and will change the way you think about careers, happiness, and the crafting of a remarkable life.

French Warships in the Age of Steam 1859-1914
- Stephen S. Roberts 2021-10-31

In 1859 the French navy was at a high point, having fought alongside the British in the Crimean War and developed a formidable fleet of fast wooden-hulled steam ships of the line. But in that very year the world's navies had to start over again when French naval architect Dupuy de Lôme introduced the ironclad battleship. The French navy then went through three tumultuous phases. In the 1860s and 1870s it focused on building a new traditionally-structured fleet in which wooden-hulled battleships gave way to iron and steel ships with massive guns and armour. In the 1880s and

1890s this effort was disrupted by a vigorous contest between battleship sailors and advocates of fast steel cruisers and small torpedo craft, leaving France by the end of the 1890s with few new battleships (none as large as the best foreign ships) but some two hundred torpedo boats. The Fashoda crisis in 1898 revealed the weakness of the French navy and between 1900 and 1914 the French focused on building a strong battle fleet. In 1914 this fleet remained well behind those of Britain and Germany in numbers, but taken individually French warships remained among the best in the world. This book is the first comprehensive listing in English of the over 1400 warships that were added to the official French navy fleet list between 1 January 1859 and World War I. It includes everything from the largest battleships to a small armoured gunboat that looked like a floating egg. The ships are listed in three separate parts to keep contemporary ships together and then by ship type and class. For each class the book provides

a design history explaining why the ships were built, substantial technical characteristics for the ships as completed and after major reconstructions, and selected career milestones including the ultimate fate of each ship. Like its predecessors written jointly with Rif Winfield, *French Warships in the Age of Sail 1626-1786* and *French Warships in the Age of Sail 1786-1861*, with which it forms the third in a trilogy, it provides a complete picture of the overall development of French warships over a period of almost three centuries.

Encounters of a Wayward Sailor - Tristan Jones 1995

That great storyteller of the sea, Tristan Jones, returns with a new collection of yarns, reminiscences, and adventures never before published in book form. Jones carries readers to the sleepy Spanish ports of the 1950s, the pleasures of Buenos Aires in the last days of Peron, and the damp forests of Southeast Asia. He recounts encounters with Bernard Moitessier and pioneering female sailor Clare Francis, as well as a panoply of memorable characters - among them a sailor who owes his life to a disconnected floodlight and a shadowy

crewmember whom Jones unwittingly smuggles into Spain.

Junk Gypsy - Jolie Sikes 2016-10-04

New York Times bestseller In their first book, the Junk Gypsies—sisters and stars of the popular Texas-born brand and HGTV show—combine big dreams, stories of roadside treasures found, and down-home design projects inspired by epic makeovers for friends like Miranda Lambert, Billie Joe Armstrong, and Sadie Robertson. Amie and Jolie Sikes, the Thelma and Louise of the design world, are the Junk Gypsies: a family with an addiction to flea markets, wanderlust, and Americana inspired design. In their world, cowgirls are heroes, road trips last forever, and junk is treasured. Beginning with a little bit of faith and a whole lot of heart and soul, the sisters travelled the back

roads of America like gypsies, collecting roadside trinkets and tattered treasures while meeting kindred spirits and lively characters along the way. With a mix of hippie, rock n' roll, southern charm, and big dreams, these small-town Texas girls became restless wanderers and owners and operators of their dream business and bohemian brand, Junk Gypsy. Filled with stories from their unique journey as well as DIY projects and bohemian inspired designs, Junk Gypsy is a tribute to all the rowdy gypsies, crafty junkers, free-spirited romantics, and true-blue rebels who have ever dared to dream big.

The authors of this book provide the answer to the many questions relating to the cost (and relative value) of environmentally friendly home improvements. This information-packed book walks readers through 50 green home projects and break them down according to the positive impact they have on the environment, as well as the impact they may have (both positive and negative) on the reader's wallet. This unique perspective on going green is a reference that green-leaning homeowners simply cannot do without.

Bodies of Violence - Lauren B. Wilcox 2015
International Relations, in both theory and

practice, has been increasingly concerned with a proliferation of modes of violence that use, target, and construct bodies in complex ways that challenge notions of security. The central argument of this work is that the bodies that practices of violence take as their object are deeply unnatural bodies, constituted in reference to historical political conditions as well as acting upon our world.

The Empress of Quintessence - Laurie Adams 2016-04-01

A conversation with a wealthy neighbour gives environmentalist Maria a chance to undertake her dream project: building a world class, eco-friendly wellness facility in the heart of the Niagara Escarpment; one that is uncompromising in its commitment to an environmental and wholistic sound practice. But the chance comes with a catch. Not only does Maria have five years to complete her project and turn a profit, but she also has to demonstrate that her environmentalist principals

are viable in the corporate world, or else she has to sell. Soon it becomes clear that her development is important to many more people than just herself. She and her land in particular become a focal point for mystics, spiritualists and healers each with an agenda of their own. As Maria progresses in her understanding of the deeper aspects of the metaphysical and paranormal, some friends become enemies, and some lovers, while others drift off into the ether, or return from the dead. Through them all, Maria learns of an ancient spiritual struggle that encapsulates Earth, one that she's much more a part of than she ever would have imagined.

New Documentary - Stella Bruzzi 2006-09-27
Praise for New Documentary: 'It's refreshing to find a book that cuts through the tired old debates that have surrounded documentary film and television. It heralds a welcome new approach.' Sight and Sound 'Documentary practice changes so fast that books on the subject are often out of date before they are

published. Bruzzi's achievement is to have understood the genre as an activity based on performance rather than observation. This is a fresh perspective which illuminates the fundamental shifts that will continue to take place in the genre as it enters its second century.' John Ellis, Professor of Media Arts, Royal Holloway, University of London
New Documentary provides a contemporary look at documentary and fresh and challenging ways of theorising the non-fiction film.
