*Honda Workshop Manual Single Cylinder 1971-1984 Cb125, Cb125s, Cb125j, Cd125s & 1970-1976 Cb100, Cl100, Sl100, Sl125 & Tl125* - Floyd Clymer 2022-06-15

257 pages and more than 500 illustrations and charts, size 8.25 x 10.75 inches. This workshop manual is a compilation of 12 original Honda publications. It includes a reproduction of the original 100cc-125cc factory workshop manual plus the 11 factory supplements that extend the coverage of that original manual through 1984. The original 'base' manual for this series of motorcycles was first published in 1970 in softbound format. In 1971 it was changed to a ring-bound publication, as this better suited the addition of supplements for model updates without the need for printing an entirely new manual. The 1970 softbound manual covered the CB100, CL100 and SL100 and in 1971 that softbound publication was updated and reprinted to include the CB125S, CD125S and the SL125. A little later, but still in 1971, the first ring-bound version was issued which now included a supplement for the TL125. However, by the end of 1976 all of those models, with the exception of the CB125, had been discontinued, but the base ring-bound manual continued to be updated through 1984 for the CB125 models. For some inexplicable reason, even though 1985 was the final year for the CB125, instead of publishing yet another update, Honda issued a singular manual specific to the 1985 model only. This 257 page manual covers the 1970 to 1984 single cylinder street, scrambler, motosport and trials models. The primary focus is the maintenance and repair of the major mechanical and electrical components including: Engine, Transmission, Clutch, Fuel, Electrical, Frame, Suspension and Steering, models covered are: 100cc Street-CB100 100cc Scrambler-CL100 100cc Motosport-SL100 125cc Street-CB125-CB125S-CB125J-CD125S 125cc Motosport-SL125 125cc Trials-TL125 Many of the earlier Honda motorcycle models were often introduced at different times in different countries using different model names or designations. For example the CB125 was first introduced in 1971 but was not available in the USA (as the CB125S) until 1973. These varying release dates and differing model designations often lead to difficulty in selecting the correct workshop manual. Worse yet, owners of this series of 100cc and 125cc singles are subjected to considerable confusion surrounding the appropriate selection from the multitude of OEM publications that have recently flooded the on-line marketplace. Honda published 11 different supplements and addendums to the original ring-bound base manual and many of these are listed as workshop manuals by individuals that deliberately intend to deceive or really have no idea what they are selling. In addition, many of the so-called workshop manual reprints are incomplete. Consequently, should you decide to purchase your manual elsewhere, you are advised to confirm that it includes all 257 pages of the original factory manual. Owners of the 1959-1966 twin cylinder 125-150cc 'Benly' C92 & C95 series are directed to our Honda factory workshop manual ISBN 9781588500823, owners of the 1964-1980 twin cylinder 125-150cc models will require our workshop manual ISBN 9781588502643. Finally, please note that the text in the original Honda Factory Workshop Manual was translated from Japanese into English. Consequently, some of the phrasing, grammar, punctuation and word usage may be subtly different from that commonly used in the English language. However the information, as presented, is readily understandable. In addition, while we have done our best to identify any anomalies and errors that may have occurred during the original translation process, we are certain that we will have missed one or two

and we request your indulgence in ignoring them.

**HONDA 50cc, 65cc, 70cc & 90cc OHC SINGLES 1959-1983 ALL MODELS WORKSHOP MANUAL** - Floyd Clymer 2022-04-02

142 pages, with more than 250 illustrations, size 8.25 x 10.75 inches. At the time of Floyd Clymer's unexpected demise in 1970, there were a number of manuals that had been completed and were ready for publication. This 'Honda 50cc - 90cc' is one of those completed but previously unpublished compilations of various Honda Factory Manuals for the OHC Honda single cylinder 50cc, 65cc, 70cc and 90cc models. This series of OHC engines was introduced in 1959 with the release of the C100 'Super Cub' and remained in production through the 1983 C70 'Passport' model. This manual covers the step-through models(mopeds), motorcycles(street, trail & off-road) and mini-trial(monkey bikes). The primary focus is the maintenance and repair of the major mechanical and electrical components including: Engine, Transmission, Clutch, Fuel, Electrical, Frame, Suspension and Steering, models covered are: 50cc Motorcycles: S50 50cc Step-Through/Mopeds: C50-C50M-CT50 50cc Mini-Bikes/Monkey Bikes: ST50-Z50A 65cc Motorcycles: S65 65cc Step-Through/Mopeds: C65-C65M 70cc Motorcycles: CL70-SL70 70cc Step-Through/Mopeds: C70-C70M 70cc Mini-Bikes/Monkey Bikes: CT70-ST70

90cc Motorcycles: CD90-CL90-S90-SL90 90cc Step-Through/Mopeds: C90-CT90 90cc Mini-Bikes/Monkey Bikes: ST90 In addition, based on information published in the 1988 American Honda Motor Co., official 'Motorcycle Identification Guide', this manual will be of interest to owners of the single cylinder OHC models listed below. Please note that this list obviously focuses on models that were marketed in the USA. However, many of these vehicles were sold in the Japanese and European market under different model names and owners of these vehicles should also find this manual to be of use. Unfortunately, due to the multitude of various models that utilized these same power-trains, individual model construction details may not be included in this manual. 50cc Motorcycles: C110\* 50cc Step-Through/Mopeds: C100\*-P50-PC50 50cc Mini-Bikes/Monkey Bikes: Z50R 70cc Motorcycles: XL70 70cc Mini-Bikes/Monkey Bikes: CT70H 70cc ATV's: ATC70-TRX70 75cc Motorcycles: XL75-XR75 80cc Motorcycles: XL80S-XR80 90cc Motorcycles: CL90L 90cc Step Through/Mopeds: CM91 90cc ATV's: ATC90 \*Owners of the C110 'Sport Cub' & C100 'Super Cub' series are directed to our Honda factory workshop manuals ISBN 9781588500854 & ISBN 9781588500861, these two manuals are exclusive to those models and as such, significantly more detailed. After his visit to Japan in 1961, Floyd Clymer published 'The Complete Catalog of Japanese Motor Vehicles' (ISBN 9781588502209). Based on his experiences during that visit, Floyd also anticipated the need for repair manuals for those Japanese motorcycles that were just starting to be imported into the USA [Yamaha (1958), Honda (1959), Suzuki (1963)]. The predominance of the Floyd Clymer Japanese motorcycle manuals were reprints or compilations of the factory publications, which today makes them more desirable than the current aftermarket manuals.
